FIRE AND SAFETY CLASS

A class on fire and safety was conducted by fire and rescue services department, Govt. of Kerala on 17 July, 2015 for the students of class VI, VII & VIII. The class was an interactive one of 2.5 Hours duration while taking care that maximum number of them actively participates in the class. The topics that were covered included the fire triangle, reasons for fire, types of fire extinguishers, their places of use, how to use the fire hydrant etc. The training also covered certain portions of disaster management.

The training class was highly effective for the young buds of the above class. Each and every child actively participated in the class with high level of enthusiasm. Some of the clips of the training class are:-

The **P-A-S-S** technique for fire extinguisher use:

P - Pull the pin. It is there to prevent accidental discharge.

A - Aim low at the base of the fire. This is the where the fuel source is.

S - Squeeze the lever above the handle. Release to stop the flow.

S - Sweep from side to side. Move toward the fire, aiming low at its base. Sweep until all flames are extinguished. Watch for re-igniting. Repeat as necessary. Have site inspected by fire department.
